

[Verse 1]

I'm staring at the sudden waterfalls  
Tears that don't make sense to me at all  
This life's what happens when you're making plans  
Don't know what happens next or where I stand

[Chorus]

Wanna live this wild life wild every day (Woo)  
Wanna say the things people never say (Woo)  
I'll take all the love and all the pain (Yeah)  
Wanna live this wild life wild today

[Post-Chorus]

Oh, woo-ooh, woo-ooh  
Give me all your love and all your pain  
Gon' live this wild life wild today

[Verse 2]

I'm staring at these faded signs ahead  
But all these turns just fill me up with dread  
But life's what happens when you're making plans (Woo)  
Dive or step right in, but please don't stand, oh

[Chorus]

Wanna live this wild life wild every day (Woo)  
Wanna say the things people never say (Woo)  
I'll take all the love and all the pain (Yeah)  
Wanna live this wild life, wild, today
